

**EIC Fellow**

**Alexei Botchkarev**

**Nominated by IEEE Canada**

Alexei Botchkarev is a public service practitioner, consultant, and researcher. He has 40 years of experience in operations research, data and information system development and quantitative evaluation, project management, systems analysis, modelling and simulation, and business processes analysis.

He is a senior information management advisor at the Ontario Ministry of Health and Long-Term Care and Adjunct professor with the Computer Science Department at Ryerson University.

His research is focused on the application of operations research, advanced quantitative analytics and econometrics to investigating complex systems, data sets and processes for the advancement of healthcare systems and informing health policy through empirical evidence. He has held many leadership volunteer positions within IEEE and is a recipient of the IEEE Canada M. B. Broughton Central Canada Merit Award and several IEEE Toronto awards.

He is a Fellow of the Institution of Engineering and Technology and a Fellow of the Operational Research Society.

Ladies & gentlemen and Mr. President, please welcome Alexei Botchkarev as a Fellow of the Engineering Institute of Canada.
